

Killary Fjord

The **Killary Fjord** experience offers a very different adventure, taking us through the crystal-blue waters of one of Ireland's most spectacular fjords. The journey begins at Uggool Beach, before continuing towards the beautiful Glausilaun Beach, with opportunities to appreciate the secluded beaches, clear waters and dramatic Connemara landscape. Along the way, we pass the local salmon farm, where, depending on the season and conditions, you can often see salmon leaping from the water. The fjord is framed by magnificent mountains, including Killary Mountain, rising to approximately 950 metres, creating breathtaking views throughout the journey. The calm waters, rugged shoreline and ever-changing light make this a truly memorable way to experience Killary from the water.
